

GREEN EMPOWERMENT

A goat has a rough fur, a pony has a soft snout. Chinchilla is sleepy in the morning, a rooster's crow can be loud. Nurse gently, build trust. Learn by being present, listen and ask.

Animal Home Pihka is the centre of Piispala's Green Care (Care Farming) activity and it is a home to a merry group of goats, pigs, hens, chinchillas, guinea pigs, ponies and a donkey. Experience the beautiful rural nature together with our animals and feel the empowering effects of our Green Care activities.
